

You want
a job

You need
a resume

And here it is:

The image shows a web application for building a resume. It is divided into two main panels: 'Build Your Resume' on the left and 'Live Preview' on the right.

Build Your Resume Panel:

- Personal Information:** Contains three input fields for 'John Lorem', 'john.lorem@example.com', and '+1 (555) 123-4567'. Below these is a text area with a placeholder text: 'Motivated and detail-oriented professional with experience in project coordination, customer support, and digital tools. Quick to learn, reliable under pressure, and focused on delivering clear results in team environments. Strong communication, problem-solving, and organization skills.'.
- Education:** Contains three input fields for 'Lorem Ipsum University', 'Bachelor of Science in Business Administration', and '2020-2034'. Below these are two buttons: 'Remove' and '+ Add Education'.
- Work Experience:** This section is partially visible at the bottom of the panel.

Live Preview Panel:

- John Lorem:** The name is displayed in a large, bold font.
- Contact:** Below the name, the email 'john.lorem@example.com' and phone '+1 (555) 123-4567' are shown.
- Description:** A paragraph of text: 'Motivated and detail-oriented professional with experience in project coordination, customer support, and digital tools. Quick to learn, reliable under pressure, and focused on delivering clear results in team environments. Strong communication, problem-solving, and organization skills.'
- Education:** A section header followed by 'Bachelor of Science in Business Administration, Lorem Ipsum University' and '2020-2034'.
- Experience:** A section header followed by 'Marketing Assistant at Lorem Ipsum Media' and '2023-2025'. Below this is a paragraph: 'Assisted with campaign planning, content scheduling, and client communication. Helped improve workflow efficiency and supported daily team operations.'
- Skills:** A section header followed by a list of skills: 'Communication', 'Teamwork', 'Problem Solving', 'Microsoft Office', 'Google Workspace', and 'Time Management'.

A watermark 'Activate Windows Go to Settings to activate Windows.' is visible in the bottom right corner of the preview panel.

A dynamic resume builder that contains only what you need with live preview

Backend simply stores files, js performs the job to add content to preview and then generate a pdf file. Through ready js solutions, css block with preview is turned into an image and then the image is turned into a pdf file. Thus complete identity of those is guaranteed. The live preview does not change regardless of window size. This is achieved by proper css code.
